Welcome to Equine HealthCare's website

On this website you will find information about the Equine Haler™, which is the first innovation from Equine HealthCare and the Nequilizer, our second innovation.

We are a Danish company totally dedicated to innovate and improve the treatment of respiratory diseases in horses.

We are experts within the field of providing technically unique products for the treatment of respiratory diseases for horses.

Furthermore we will dedicate ourselves to improve the diagnostical process of detecting respiratory diseases in order to assist veterinarians.
